HOME PAGE OPPORTUNITY

Featured Blog:

- Article must quality as "Expert Corner" Blog, SEO optimized.
- Anchored On 3DHEALS landing page as first article in "Expert Corner" and side widget top element for a month after publication
- Social Media Share 3x within the first month of publication
- Labeled as "Ad" or "Sponsored"
- 500 USD/article

The screenshot displays the 3DHEALS website home page. At the top, the navigation bar includes the 3DHEALS logo, a QR code, and links for Blog, Events, Courses, Directory, Pitch3D, More, Account, and a user profile for huijennychen. A search bar is located in the top right corner.

The main content area features a section titled "EXPERT'S CORNER" with three featured articles. The first article, "Revolutionizing 3D-Printed Facial Titanium Implants Polishing" by Jaime Miras (dated Sep 08, 2023), is highlighted with a red circle. The second article is "3D Printing and Neurology Help Prosthesis Acceptance in Children with Upper-limb Reduction Deficiency" by Jorge Zuniga (dated Aug 15, 2023). The third article is "Bioprinting Revolution: The Power of Progressive Cavity Technology" by Annaliese Vojnich (dated Aug 15, 2023).

Below the main content area is a large image of a 3D-printed facial titanium implant. To the right of this image is an "Archives" widget with a search bar and a "Select Month" dropdown. The featured article is also highlighted with a red circle in the archives widget.

At the bottom of the page, there is a social media feed for "3DHEALS Lattice 3D Printing News Feed" with icons for WhatsApp, Telegram, Facebook, and Instagram.

The screenshot shows a course page on the 3DHEALS website. The course title is "HEALTHCARE 3D PRINTING 101: WHY YOU SHOULD CARE". The instructor is Jenny Chen, M.D. The category is "General" and "Introductory course". The price is \$20.00. The duration is "N.A." and the start date is "04 Feb, 2019". There is a "TAKE THIS COURSE" button. Below the course details is a photo of a panel discussion with several people seated on a stage. The text below the photo reads: "This is a concise industry overview course on healthcare 3D printing and bioprinting. The instructor organizes the industry in a way that will provide a more clarified view on the industry, major players, main driving forces and technologies, its current and future status."
